KENT COUNTY EMERGENCY MANAGEMENT DIVISION
FLOOD UPDATE – April 23, 2013

KENT COUNTY – Flood waters are receding throughout Kent County, and now, many people are working to clean up the damage left in homes and yards. The clean-up effort could last days, perhaps even weeks. With that in mind, the Emergency Management Division is working hard to make sure that health and safety are a priority for all in the course of the clean-up efforts.

“There is still a lot of work to be done,” said Lt. Jack Stewart, Emergency Management Coordinator for Kent County. “County crews, from first responders, to Road Commission and DPW crews, to specialists at the Health Department, are continuing to respond to a number of health and safety issues.”

The local State of Emergency issued on April 19, 2013, remains in effect for all Kent County cities, townships and villages, until further notice. This declaration is the first step towards applying for state and/or federal funding to cover costs incurred by the damage. Updates and information on the flooding can be found at www.accessKent.com/News.

These concerns remain:

1. If you were evacuated from your home, **DO NOT RETURN** until authorities say it is safe to return. Consumers Energy is presently working with local officials to determine when it is safe to turn power back on. If your power is out and/or your gas shut down, do not attempt to turn these on yourself. Do not light matches in a house or business until it is deemed safe. Crews from your energy company will do this for you. More information at:
<http://www.accesskent.com/Health/EmergencyPrep/pdfs/CleaningUpFactSheet.pdf>.
2. The no-contact advisory for the Grand River throughout ALL of Kent County will remain in effect until further notice. Concerns include a fast-moving current, debris, and contamination. Our first responders have had to save several people who ventured into the water (via kayak or raft) and ended up in trouble. **Stay out of the water - period.**
3. We are continuing to ask people to **conserve water**:
 - Flush the toilet less;
 - Shower for a shorter time;
 - Avoid doing laundry, or do larger loads at once;
 - Avoid the dishwasher - hand-wash dishes instead.

4. If you have well water and the well head was submerged at any time, your water may be contaminated. It should not be used for drinking, cooking, brushing teeth, dish washing, or bathing. Water testing sample bottles are available from the Kent County

Health Department and their four satellite clinics, as well as most township offices throughout Kent County. Until testing results are complete, use bottled water, DO NOT use your well water. People drinking or washing with water from a private well that has been flooded will risk getting sick. If you are uncertain about the integrity of your well, call a registered well driller or licensed plumber. (The Kent County Health Department recommends testing well water annually, regardless of weather conditions.)

5. Clean and disinfect businesses and homes where the flooding occurred within 24-48 hours of returning. Wear gloves when handling anything that may have been in flood water or sewage. These areas could have organisms that cause illness to humans and pets. Be careful to avoid sharp metal while cleaning, as cuts can lead to tetanus concerns. Again, more information can be found here:

<http://www.accesskent.com/Health/EmergencyPrep/pdfs/CleaningUpFactSheet.pdf>

6. Throw away any food that came in contact with floodwater or sewage, or, if in a freezer or refrigerator, throw out food with an unusual color, odor, or if the temperature is above 45° F internally.

7. Hazardous waste, such as gasoline, insect repellant, antifreeze or motor oil, can be taken to these drop-off sites:

Transfer station at North Kent Landfill

2908 10 Mile Rd NE
Rockford, MI 49341

The Kent County Road Commission

1500 Scribner NW
Grand Rapids, MI 49504

The Wyoming Waste Water Treatment Plant

2350 Ivanrest Ave SW
Grandville, MI 49418

Kentwood Public Works

5068 Breton Rd SE
Kentwood, MI 49508

More information, including hours for Saturday drop-off, can be found at:

http://www.accesskent.com/Departments/DPW/sat_collections.htm.

The American Red Cross continues to operate three shelter locations in Kent County: First Baptist Church in Lowell, Kentwood Activities Center in Kentwood, and Alpine Baptist Church in Comstock Park. These locations are open from 8 a.m. to 8 p.m. Those needing overnight shelter should call 211. The locations also can provide residents with clean-up kits, which include a mop, gloves, broom, bucket, scrub brush and cleaning chemicals. For more information, contact the American Red Cross at 616.456.8661.

If you require additional information (or an on-camera interview) please contact Lt. Jack Stewart, Kent County Emergency Management Coordinator, at 616.632.6255, Undersheriff Jon Hess at 616.632.6236, or PIO Lisa LaPlante at 616.632.7182. ###

April 23, 2013 ROADS CLOSED

*****This list is subject to change as conditions change
throughout the day*****

North

15 Mile from Stout to Shaner (impassable) access address 6610 from west and 6645 from east
